# CONDITIONS OF SALE

**I. REJECTION OF BIDS:** Any bid which is not commensurate with the value of the article offered, or which is merely a nominal or fractional advance, may be rejected by the auctioneer if in his judgment such bid would be likely to affect the sale injuriously.

**II. THE BUYER:** The highest bidder shall be the buyer, and if any dispute arises between two or more bidders, the auctioneer shall either decide the same or put up for re-sale the lot so in dispute.

**III. IDENTIFICATION AND DEPOSIT BY BUYER:** The name of the buyer of each lot shall be given immediately on the sale thereof, and when so required, each buyer shall sign a card giving the lot number, amount for which sold, and his or her name and address.

A deposit at the actual time of the sale shall be made of all or such part of the purchase prices as may be required.

If the two foregoing conditions are not complied with, the lot or lots so purchased may at the option of the auctioneer be put up again and re-sold.

**IV. RISK AFTER PURCHASE:** Title passes upon the fall of the auctioneer's hammer, and thereafter the property is at the purchaser's risk, and neither the consignor nor the Association is responsible for the loss of, or any damage to any article by theft, fire, breakage, however occasioned, or any other cause whatsoever.

**V. DELIVERY OF PURCHASES:** Delivery of any purchases will be made only upon payment of the total amount due for all purchases at the sale.

**VI. RECEIPTED BILLS:** Goods will only be delivered on presentation of a receipted bill. A receipted bill presented by any person will be recognized and honored as an order by the buyer, directing the delivery to the bearer of the goods described thereon. If a receipted bill is lost before delivery of the property has been taken, the buyer should immediately notify the Association of such loss.

**VII. STORAGE IN DEFAULT OF PROMPT PAYMENT AND CALLING FOR GOODS:** Articles not paid for in full and not called for by the purchaser or agent by noon of the day following that of the sale may be turned over by the Association to some carter to be carried to and stored in some warehouse until the time of the delivery therefrom to the purchaser, and the cost of such cartage and storage and any other charges will be charged against the purchaser and the risk of loss or damage occasioned by such removal or storage will be upon the purchaser.

In any instance where the purchase bill has not been paid in full by noon of the day following that of the sale, the Association and the auctioneer reserve the right, any other stipulation in these conditions of sale notwithstanding, in respect to any or all lots included in the purchase bill, at its or his option, either to cancel the sale thereof or to re-sell the same at public or private sale without further notice for the account of the buyer and to hold the buyer responsible for any deficiency and all losses and expenses sustained in so doing.

**VIII. SHIPPING:** Shipping, boxing or wrapping of purchases is a business in which the Association is in no wise engaged, but the Association will,

however, afford to purchasers every facility for employing at current and reasonable rates carriers and packers; doing so, however, without any assumption of responsibility on its part for the acts and charges of the parties engaged for such service.

**IX. GUARANTY:** The Association exercises great care to catalogue every lot correctly and endeavors therein and also at the actual time of sale to point out any error, defect or imperfection, but guaranty is not made either by the owner or the Association of the correctness of the description, genuineness, authenticity or condition of any lot and no sale will be set aside on account of any incorrectness, error of cataloguing or imperfection not noted or pointed out. Every lot is sold "as is" and without recourse.

Every lot is on public exhibition one or more days prior to its sale, and the Association will give consideration to the opinion of any trustworthy expert to the effect that any lot has been incorrectly catalogued and in its judgment may thereafter sell the lot as catalogued or make mention of the opinion of such expert, who thereby will become responsible for such damage as might result were his opinion without foundation.

**X. RECORDS:** The records of the auctioneer and the Association are in all cases to be considered final and the highest bid shall in all cases be accepted by both buyer and seller as the value against which all claims for losses or damage shall lie.

**XI. BUYING ON ORDER:** Buying or bidding by the Association for responsible parties on orders transmitted to it by mail, telegraph, or telephone, if conditions permit, will be faithfully attended to without charge or commission. Any purchases so made will be subject to the foregoing conditions of sale, except that, in the event of a purchase of a lot of one or more books by or for a purchaser who has not through himself or his agent been present at the exhibition or sale, the Association will permit such lot to be returned within ten days from the date of sale, and the purchase money will be refunded, if the lot differs from its catalogue description.

Orders for execution by the Association should be given with such clearness as to leave no room for misunderstanding. Not only should the lot number be given, but also the title, and bids should be stated to be so much for the lot, and when the lot consists of one or more volumes of books or objects of art, the bid per volume or piece should also be stated. If the one transmitting the order is unknown to the Association, a deposit must be sent or reference submitted. Shipping directions should also be given.

**PRICED CATALOGUES:** Priced copies of the catalogue, or any session thereof, will be furnished by the Association at charges commensurate with the duties involved in copying the necessary information from the records of the Association.

These conditions of sale cannot be altered except by the auctioneer or by an officer of the Association.

CATALOGUE

MRS. DU BOIS, who together with her mother formed and in part inherited this charming, individualistic collection, is widely known not only as a connoisseur but as a brilliant painter in water colors, and has in times past contributed to many successful exhibitions.

Mrs. Du Bois' home on Riverside Drive, in which her fine collection, now offered for sale by her through the medium of the American Art Association, formed an appropriate background for her splendid specimens of English and American furniture, including six finely decorated apple-green Windsor chairs among other types, several interesting spinning wheels, a beautiful rosewood spinet by W. Geib, New York, an exceptionally fine carved mahogany secretary-bookcase by Savery of Philadelphia and a unique long low bookcase of fiddle-back maple—with rich golden patina and of a distinctly rare type. The early American clocks are also entitled to attention.

The Sheraton decorated satinwood furniture is of great merit, including a beautiful eighteenth century Pembroke table, a number of banquettes, chairs and cabinets of distinction, small boxes for tea and for work, and a very rare *eglomisé* cabinet, unquestionably the work of Zucchi. A two-part mahogany dining-table with broad satinwood borders is unusually fine, and the ten delightful Chippendale mahogany chairs which surrounded it are equally good; there is also an elaborately carved Chinese Chippendale cabinet, occupied by exquisite Venetian glass, a corner-cabinet, an Adam console table and a very elaborately inlaid Sheraton mahogany sideboard with its accompaniment of Georgian silver. An Adam mantel and a large portal which originally graced a mansion in Portland Place, London, make a romantic as well as an artistic appeal. There are also several interesting Queen Anne walnut bureaux and double-chests.

The miniatures, prints, water colors and other paintings are highly decorative; a portrait by Mierevelt is of very considerable merit and a landscape by Munn also worthy of mention. Two colorful leaded stained glass panels, one Swiss and the other Flemish, are of importance.

The group of faience comprises ancient examples of Leeds, Spode, Delft, many Italian types and several specimens of Japanese pottery of distinction. Chinese snuff bottles and porcelains are mainly of the K'ang-hsi and Ch'ien-lung periods, including a number of single color examples and a few fine blue and white specimens.

The group of small Egyptian objects—scarabs and necklaces—was collected by Mr. and Mrs. Du Bois during various sojourns in Egypt, the first of which took place in the winter of 1899; this group represents only a part of their findings, the other and major portion of the collection having been loaned by Mrs. Du Bois to the Metropolitan Museum.

There are a few excellent textiles and embroideries, including three superb Spanish gold needlepainted Renaissance panels and several Italian sixteenth century filet lace covers of great charm. A few eighteenth century royal Bokhara rugs and a Persian eighteenth century floral trellised carpet, rich in beautiful blues and evanescent rose-crimsons, complete this truly admirable collection.

FAIENCE AND BRONZE AMULETS AND SMALL FIGURES  
OF VARIOUS DYNASTIES

During the winter of 1899, Mrs. Du Bois, then Miss Cook, and her mother were in Egypt and, becoming interested in Egyptian antiquities, commenced to collect them at that time. After her marriage to Mr. Du Bois they returned to Egypt, and for some years spent the winters there, collecting, and gathering amongst other examples those which are now on exhibition. The major portion of the collection Mr. and Mrs. Du Bois have loaned to the Metropolitan Museum and it is considered the finest and most complete collection of its kind in existence. Indeed, no other collection has been attempted on such a scale, i.e. the reconstruction of entire groups of ornaments into chronologically correct necklaces in the Egyptian manner. In most instances it meant a search extending over many years to complete each example.
